These are awesome. Somebody needs to mix them into a full on 8-bit song! Your preview just had a groovy, driving retro beat all through it!

It's CC0 license so you are free to do what ever you like with these sounds.

Also thank you all for the comments and favorites! I had fun creating this SFX pack, I hope you will find it useful.

Thanks for the Epic sound effects! I couldn't find anything that sounded right for my game, but then I found these, which are perfect! Thanks for making those! ... I just realized, why did I capitalize the e in epic in my first sentence? Whatever! Thanks for the sounds, and know you made someone's day!

Thanks a lot, it's a precious ressource. I'm learning sound design (SFX) and am very curious of what softwares / plugins you used for creating it ? I don't manage to get any close to some sounds here using FamiStudio or FamiTracker.
