A downloadable asset pack

Download Now Name your own price

Epic 8 space ship pack with animated engines, shields, weapons, and destruction animation. Also include 5 animated projectiles. Check out the preview gifs in the screen shots to see what all you will be downloading. All animations include the .ase file in addition to the sprite sheets.

Works great with other Void assets.

Enjoy!

THANK YOU!

I am a heavy user of Construct 3 and make various templates and tutorials available for free. These assets work great with the engine. If you are new to making games or want to try out a refreshing engine that makes game development *fun* again using both intuitive event sheets and JavaScript, you can support me by using the referral link below:

Thank you for allowing us to use your asset pack free of charge. Your assets were extremely easy to implement into the game and fit in perfectly.

Here is the project I completed with the help of your work!

Hi! Your work is very very amazing! I truly mean it! I used only one of your spaceships because i only needed one, however for sure, your spaceships were one of the best, or the absolute best in my opinion, same for your other assets, they are amazing!
I made a game and used one of your ships, however, all your work is generally very good, thank you very very much.

Hi, love the sprits, but I just noticed the PNG is a much lower resolution then the previews show. Is there any reason this is?

Reply

Foozle 3 years ago (+1)

If you have Aseprite, you can always go and export at a higher resolution, or use any image upscaling tool with nearest neighbor and it should work just fine. It was set for pixel art resolutions. Hope that helps!

WorldHatter 3 years ago

The animations are very nice, and I like the ships' design, that's a great pack! And thank you for making it free!
